

PSX Boot Gasket to be used for 12" - 36" Dia. Sanitary Sewer Pipe.

SPECIFICATIONS:

PSX Boot Gaskets provide a durable & flexible pipe-to-manhole connection. PSX Boot Gaskets are widely specified & accepted with exceptional watertight performance and meet or exceed the requirements of ASTM C923.

The rubber gasket element shall have a minimum tensile strength of 1600 PSI and the minimum cross-section thickness shall be 0.275 inches (7mm).

The internal expansion ring and external compression clamp(s) shall be constructed of Series 300 non-magnetic stainless steel and shall utilize no welds in their construction.

The finished connection shall provide sealing to a minimum of 13 PSI and shall accommodate pipe deflection to a minimum of 7 degrees without loss of seal.
